Quick Guide

LOFFLER

Scan

Setting Default Scan Settings & Location for SmartWorks Scanning

Create a preset first, then edit the settings as needed

1. Select Settings >> Presets>> Scan

	Settings Edit Presets			
Preset	Default	Display	User/Global	
folor traphos		On	fixed	$\dot{\mathbf{x}}$
Color Photo	0	On	fixed	☆
	0			
	0			
	0			☆
	0			☆
	0			
	0			☆
	\cap			

3. Rename the preset >> OK

New Preset Name	
test	
ОК	

- 4. While preset is selected, select edit
 - a. Edit File Settings: Select Folder >> Edit >> Choose the location for the preset
 - b. Edit Scan Settings: Change default scan settings as desired
 - c. Edit Filter Settings: Change settings as desired

5. Be sure that the new preset is set as the default under the Edit Presets option

Preset	Default	Display	User/Global	Favorites
test	lacksquare	On	Global	公
Color Graphics	0	On	Fixed	\$
