DF-990Ac
Automatic Folder

The DF-990Ac Automatic Paper Folder is one of the quietest tabletop folding machines in its product range. With a high speed of up to 260 sheets per minute, the DF-990Ac utilizes a three-roller friction feed system to process a wide range of paper stocks. It also offers a new hand feed kit option which allows operators to manually feed one to three sheets at a time for quick folding. Simply load the paper into the hand feed tray and the DF-990Ac does the rest.

The DF-990Ac comes pre-programmed with six standard fold types including single, double, half accordion, letter, accordion and gate - enabling users to fold a variety of applications at the touch of a button. With the user-friendly color LCD touch panel, operators can also create custom fold styles and save them into one of the 15 job memories. The DF-990Ac offers a 500-sheet feed tray capacity with feed pressure, paper separator, and a skew correction adjustment that can easily be fine-tuned as needed. Compact in size, the high-speed DF-990Ac is ideal for any office or print environment.

Special Features

- Folds up to 260 sheets per minute
- Performs six of the most common folds plus custom folds
- Cross folding feature for right angle folds
- 15 job memory for quick recall of frequently used jobs
- Optional hand feed kit for manual feeding and folding of up to 3 sheets
- Three-roller friction feed system
- Misfeed and paper jam detection
- Compact, quiet and reliable
