

Copilot Jumpstart Program

64% of employees report that they do not have the time or energy to get their work done.¹

70% of employees would delegate as much work as possible to AI to lessen their workloads.¹

Why Copilot Matters for Businesses

Microsoft Copilot is designed to enhance productivity by automating repetitive tasks, summarizing information, and providing intelligent insights—all within the tools businesses already use, like Outlook, Teams, and Word. However, many companies struggle to adopt AI effectively, often unsure of where to start or how to use it securely.

That's where our Copilot Jumpstart engagement comes in. This program guides businesses through real-world use cases, helping them implement AI in a structured and secure way.

Unlock AI-Powered Productivity

Automate daily tasks, from email summaries to meeting notes.

Enhance Business Processes

Learn how AI can streamline decision-making and operations.

Boost Efficiency & Collaboration

Use AI to work smarter, not harder.

Improve Security & Compliance

Receive expert insights on AI security and best practices.

Hands-On Learning

Practical exercises ensure real-world application.

Custom AI Policy

Set guidelines for responsible AI usage within your organization.

Program Overview

What is Copilot Jumpstart?

The Copilot Jumpstart program is a five-week, hands-on training program that helps businesses adopt and maximize Microsoft Copilot. Participants complete weekly AI-driven challenges (“quests”) that teach them how to use Copilot to automate tasks, streamline workflows, and enhance productivity.
