# Konica Minolta Bizhub series: Loading Windows Print Driver

- Select https://onyxweb.mykonicaminolta.com/OneStopProductSupport?appMode=Public&appMode=Public
- 2. Search for the printer model, then click Drivers.
- 3. Select and download the driver based on the computer's operating system. If unsure, go to the start menu and search "about this PC."
- 4. Select the downloaded file. Open the zip file and press Drivers then Setup x64 to extract. Open Drivers and press Setup x64 again.
- 5. Follow the steps in the wizard. If the machine automatically finds the IP address, finish the installation. If it does not, continue onto the next steps.
- 6. Close out of the wizard. Select the Windows start menu and type in "Printers & Scanners" to open.
- 7. Select + to add the printer.
- 8. Select "The printer I want isn't listed."
- **9.** Select "Add a printer using a TCP/IP address or hostname" and press Next.
- **10.** From the drop down, choose TCP/IP Device.
- **11.** Enter the machine's IP address, uncheck the Query button, and press Next.
  - If not sure of the IP address, go to the printer. • Select Menu >> Utility >> Device Information for the IPv4 address.
