

AN ENTERPRISE WORKFLOW SOLUTIONS PLATFORM

YSoft SafeQ provides businesses of any size print management and document capture solutions. In the era of Digital Transformation, organizations need to be concerned with compliance and risk, cost reduction, business growth, scalability and sustainability.

Key print management and document capture features

COMPLIANCE & RISK MITIGATION

Document security and privacy of data is a critical concern

- Managed access to print and scan devices
- Standard compliant security protocols and data encryption
- Protecting user and companies from sensitive data leakage/disclosure
- A tool for GDPR compliance
- Pull printing

BUSINESS GROWTH SUPPORT THROUGH DIGITAL TRANSFORMATION

Productive employees help your business grow more efficiently

- Integrated and automatic scan workflows with powerful OCR processing, secure transport and archiving – with an elegant and easy to use interface
- Mobile print and wireless print capabilities provides mobility and flexibility to employees and guests

PRINT SERVICE COST REDUCTION

Consumables and print infrastructure cost reduction

- Rule based printing enforces print governance policies – two-sided printing and black and white instead of color
- A patented, building block architecture requires fewer servers
- Pay-for-print options

ACCOUNTABILITY & SUSTAINABILITY

Increases transparency and provides data for reporting

- Customizable reports provide data on the print activity across your entire infrastructure
- Green Reports show environmental savings
- Project codes allow service organizations to accurately track and bill for print/scan/copy

Y Soft takes a Customer First approach across its entire product, solution and service portfolio. It is the reason YSoft SafeQ is the preferred solution.

PLATFORM FOR GROWTH

- Built from the ground up as an integrated platform
- Each solution is available separately and, when used together, is seamlessly integrated for users and administrators
- Print management is offered on 2D and 3D print fleets
- Offered as individual modules or software suites for greater value; subscription (SaaS) or traditional license per device
- Multivendor support for multifunctional devices/networked printers

HARDWARE & SOFTWARE

- Hardware designed, manufactured and tested by Y Soft. Includes external terminals, card readers, server appliances and payment machines
- Software includes YSoft SafeQ Client desktop applications and scan workflow connectors to 3rd party applications or on-premise and cloud-based repositories, mobile app and Cash Desk

BUILDING BLOCK ARCHITECTURE

- Patented building block architecture provides near infinite scalability with extreme flexibility and reliability
- Easily deploy on existing infrastructure and configure for needed high availability, failover and redundancy
- Supports SMB and enterprises with centralized and highly distributed services
- Pull printing supported across all networked multifunctional devices and printers

24/7 365 WORLDWIDE SERVICE & SUPPORT

- Global Operational Excellence Framework™ ensures high customer satisfaction
- Proactive Care and Service Level Agreement options for 24/7 support and service 365 days a year
- Offices located worldwide for local sales, service and support in native languages
