# Software Version 073.xxx.xxx.xxxx: Scan to a USB Flash Drive

You can scan a document and store the scanned file on a USB Flash drive.

**NOTE:** Your System Administrator must set up this feature before it can be used.

- 1. Load the original on the Document Glass or in the Document Feeder. See the **Related Content** for additional information.
- 2. Press the [Services Home] button on the Control Panel.
- 3. Select [Workflow Scanning] on the Touch Screen.
- 4. Select [Change].
- 5. From the Pick a Workflow screen, select [USB].
- 6. Insert your USB Flash drive in the USB port on the printer Control Panel.

**NOTE:** If the USB Flash drive is already in the USB memory port, press Services Home, then select Workflow Scanning. The USB workflow is selected automatically.

- 7. To change any of the scan settings, on the Workflow Scanning screen, select options.
- 8. Press the [Start] button. The Job Progress screen will display and the original is scanned. The file is stored on your USB Flash Drive.
- 9. Remove the USB Flash Drive from the printer.
